FROM COACH GRANGER What a very quick four years it has been. This Senior class is the first class I've had at Lakeside that has been with me since they were Freshmen. I remember them coming in very wide eyed, full of energy, and a lot smaller. This may be the most intelligent class I've ever had in 33 years of coaching. They compete in the classroom as hard as they do on the field. I have really seen such a great maturity in these young men. I know that they are destined to be great in whatever endeavors they decide to pursue. They make me very proud everyday, and I have been very blessed to be their coach.
